

- INDOOR AND OUTDOOR KIOSKS
- INTERACTIVE DIGITAL SIGNAGE
- DIGITAL MEDIA PLAYERS
- COMPLETE TURN-KEY SOLUTIONS
- CUSTOM DESIGNS

Comark manufactures interactive self-service systems, digital signage solutions and ruggedized outdoor kiosks for virtually all environmental conditions. In conjunction with our select software partners, we deliver complete kiosk and digital signage solutions that are easy to install, easy to use and easy to maintain.

IDEAL FOR:

- Retail
- Healthcare
- Education
- Hospitality
- Food Service

INDOOR KIOSKS - WIDE-TOUCH AND WIDE-TOUCH FX

Comark's Wide-Touch and Wide-Touch FX kiosks are ideal for applications in malls, retail stores, restaurants, concession stands and convention centers. They feature 19" Wide-format LCDs, optional touchscreens and powerful, yet low power, computer options. The FX model adds printer and magnetic stripe reader options and allows for front access maintenance. Desk, wall or free-standing pipe mounting is available.

PROVEN APPLICATIONS:

- Wayfinding
- Directory Service
- Human Resources
- Self Service Ordering
- Self Service Check-In
- Surveys
- Product Selection
- Digital Advertising
- Visitor Center
- Ticketing

OUTDOOR KIOSKS - MULTI-TOUCH

Comark's Multi-Touch is a rugged kiosk solution for both indoor and outdoor applications, such as amusement parks, sporting venues, tourist information directories and automated parking facilities. The Multi-Touch features a 17" Wide-format LCD, weather-resistant touchscreen, and multiple computing options. Additional options include sunlight readable displays, extended temperature ratings, thermal printers, mag stripe readers, bar code scanners, web-cams and a wide variety of input devices.

DIGITAL SIGNAGE - PRODUCTS FOR BOTH INDOOR AND OUTDOOR USAGE

Comark offers a variety of Digital Signage products for both indoor and outdoor usage. Our 32" Interactive system features a wide screen display with integrated touchscreen and Intel M Series computing. The Large Screen Display series offers displays sized from 37" to 60", with touchscreen and computing options available. Comark also offers ThinSign, a digital media player perfect for low-profile, high-performance applications. ThinSign mounts to the back of any size display using a 100mm VESA mounting pattern.

CUSTOM SOLUTIONS - LET US ENGINEER A SOLUTION FOR YOU

Comark offers custom solutions to those clients who have specific needs. Comark's design and engineering team will deliver the best possible product for your application. Seamless integration with state-of-the-art software and network applications allow us to deliver dynamic solutions engineered for customer-specific requirements. Comark provides unique and cost-effective products which provide a level of solution flexibility unmatched in the industry.
